Subject: RE: Formaldehyde Overview Document
Attachments: Formaldehyde Main Text_techedit_062218_ICF_unformat.docx

Hi Vicki et al.,

Attached please find the formaldehyde document.
We completed everything on the CSR.

Please see the following note from our librarian:

“One note, I found when the doc is formatted (needed to run the QA checklist) many of these refs are not in our ENL — we had to create an ENL from the Formaldehyde project page in HERO as they did not provide one. If EPA is planning to format the citations in this document, they will need to create a full ENL.”

If you encounter any issues as you review this, please let me know. Greg is out until August 13, but I should be able to answer any questions. And if it concerns the Work Assignment, I can probably get a message to him within a day.

Thank you,

Penny
